EARLY INTERVENTION PROGRAMS (Birth – Age 5)

Maryland State Department of Education: Division of Special Education/Early Intervention Services

The Division of Special Education/Early Intervention Services provides leadership, support and accountability for results to local school systems, public agencies and stakeholders through a seamless, comprehensive system of coordinated services to children and students with disabilities, birth through 21, and their families. The Division has the major Department responsibilities for programs and services related to infants, toddlers, preschoolers, and youth with disabilities and their families. These programs include: early intervention, preschool special education, and special education (birth through 21), nonpublic schools, the Infant Hearing Aid Loan Program, Medical Assistance for school-health related services, Maryland’s Autism Waiver and related autism programs and interagency mental health initiatives. In addition, the Division is the lead for the Interagency Rate Setting Committee for group home rate setting, the lead for the Children’s Cabinet and serves as the fiscal agent for the Children’s Cabinet Interagency Fund and Home Visiting Programs.

Maryland Infants and Toddlers Program (MITP)

Supports and services are provided by local departments of education, health, social services, and other public and private providers identified by local jurisdictions. The MITP provides a family-centered system of early intervention services based on the federal Individuals with Disabilities Education Act (IDEA). Services may include: audiology, physical therapy, occupational therapy, transportation, speech-language pathology, family training, special instruction, assistive technology, health services, and home visits. Early intervention and education helps to open the window of opportunity for young children with disabilities and their families.
