Maryland: 2019-nCoV Cases and PUI

• Number of patients approved for 2019-nCoV testing: 2
• Number of 2019-nCoV tests pending at CDC: 0
• Number of negative 2019-nCoV tests: 2
• Number of laboratory-confirmed 2019-nCoV cases: 0

• Testing and case counts posted at http://health.maryland.gov/coronavirus

Data current as of February 11, 2020
Testing for 2019-nCoV

• Testing for 2019-nCoV is still being performed at CDC.
*New* Triage Poster

Prevent the spread of 2019 Novel Coronavirus

If you have:

- Fever
- Cough
- Shortness of breath
- Traveled to China in the last 14 days or
- Had contact with someone who has traveled to China in the last 14 days who has been sick

Please immediately tell a staff member and put on a mask.

Maryland DEPARTMENT OF HEALTH
*New* Clinician Poster

Consider 2019 Novel Coronavirus (2019-nCoV)

**Symptoms**
- Does the patient have **any** of the following:
  - Fever
  - Cough
  - Shortness of breath

**Exposures**
- Does the patient have **any** of the following:
  - Travel to China within 14 days of illness onset
  - Contact with a person with 2019-nCoV

If clinical or exposure history are concerning for 2019-nCoV:

1) Isolate patient: Provide facemask and place in private room (preferably negative pressure); use N95 respirator, gowns, gloves and eye protection to assess patient **AND**

3) Consult with local health department while patient is still present to discuss 2019 Novel Coronavirus testing

For up-to-date resources and information: Visit health.maryland.gov/coronavirus
New CDC Guidance for Healthcare Settings Released

• Details risk classification for asymptomatic healthcare personnel following exposure to patients with 2019-nCoV infection, and monitoring and work restriction recommendations

Updated February 8, 2020

This interim guidance is effective as of February 3, 2020, and does not apply retrospectively to people who have been in China during the previous 14 days and are already in the United States.

CDC has provided separate guidance for healthcare settings.

Monitoring Update

• Current status

• Next steps

HEALTH ALERT: Travelers from China
There is an outbreak of respiratory illness in China.

Travelers are required to be monitored for up to 14 days after leaving China.

Travelers should stay home and monitor their health within this 14-day period.
A health official will contact you to give additional instructions.

Take your temperature with a thermometer 2 times a day and watch your health.

If you develop a fever (100.4°F/38°C or higher), cough, or have difficulty breathing:
• Call your health department for advice before seeking care.
• If you can’t reach your health department, call ahead before going to a doctor’s office or emergency room.
• Tell them your symptoms and that you were in China.
