

Therapeutic Groups and Classes of Drugs added to the MADAP Formulary  
Updated as of 02-21-2019

| Therapeutic Group Description   | Therapeutic Class Codes   | Sample of Corresponding Drugs   |
|---|---|---|
| <b>A: Cardiovascular Agents</b>   |   |   |
| Chest pain, Heart failure, High blood pressure, Irregular heart beat Agents | A1A, A1B, A2A, A2B, A2C, A4D, A4F, A4H, A4I, A4J, A4K, A4L, A4V, A7B, (J7A, J7B, J7C) | AMLODIPINE, DIGOXIN, ENALAPRIL, FUROSEMIDE, HCTZ, METOPROLOL, NITROGYCERIN, VALSARTAN |
| <b>B: Pulmonary and Respiratory Tract Agents</b>                            |   |   |
| Expectorant   | B3J   | AMIBID, MUCINEX MAX   |
| Asthma agents   | B60, B61, B62, B63, B6M, B6W, B6Y (Z4B)   | ADVAIR, BREO, PROVENTIL, SPIRIVA, SYMBICORT   |
| <b>C: Dietary &amp; Related Metabolic Agents</b>                            |   |   |
| Alcohol Use Disorder Agent  | C0D   | VIVITROL  |
| Electrolyte Management Agents   | C1A, C1D  | SEVELAMER, RENVELA, POTASSIUM CHLORIDE  |
| Oral and Injectable Diabetic Agents   | C4F, C4G, C4I, C4J, C4K, C4S, C4W, C4X  | TRESIBA, OZEMPIC, TRADJENTA   |
| Gout Agents   | C7A   | ULORIC, ALLOPURINOL   |
| <b>D: GI Tract &amp; Related Digestive Agents</b>                           |   |   |
| Digestive and Bowel Disorder Agents   | D4J, D6G, D8A (W9C, Z2D)  | LINZESS, PANCREAZE  |
| Cholesterol-lowering Agents   | D7L   | WELCHOL   |
| Ammonia Inhibitor   | <b>D9A</b>  | LACTULOSE   |
| <b>F &amp; G: Hormonal &amp; Contraceptive Agents</b>                       |   |   |
| Male/Female hormonal and Birth control agents                               | G1A   | PREMARIN  |
| <b>H: CNS &amp; Related Psychiatric Agents</b>                              |   |   |
| Antipsychotics, phenothiazines  | <b>H2G</b>  | THORAZINE   |
| Pain and fever agents, salicylates  | <b>H3D</b>  | SALSALATE   |
| Migraine, Fibromyalgia and Seizure Disorder Agents                          | H3F, H4B  | PHENYTOIN, PREGABALIN, SUMATRIPTAN, TOPIRAMATE  |
| Opioid antagonists, central & peripheral                                    | <b>H3T, H3Y</b>   | NALTREXONE, MOVANTIK  |
| Cough suppressants (Anti-tussives, non-narcotic)                            | H6C   | TESSALON  |
| Muscle Relaxants  | H6H   | BACLOFEN, FLEXERIL  |
| <b>J: Peripheral Nervous System Agents</b>                                  |   |   |
| Belladonna Alkaloids  | <b>J2A</b>  | HYOSYNE   |
| Anticholinergics antispasmodics (GI)  | <b>J2B, J2D</b>   | BENTYL, ROBINUL   |
| High blood pressure agents  | J7A, J7B, J7C   | BYSTOLIC, COREG, ZEBETA   |
| <b>L: Topical Dermatologic Preparations</b>                                 |   |   |
| Topical Enzymes   | <b>L0B</b>  | SANTYL OINTMENT   |
| <b>M: Hemodynamic &amp; Hematologic Agents</b>                              |   |   |
| Lipid-lowering Agents   | <b>M4D, M4E</b>   | VASCEPA, ZETIA, ZOCOR   |
| Anticoagulants and Heparins   | M9K, M9L, M9P, M9T, M9V   | BRILINTA, ELIQUIS, HEPARIN, WARFARIN  |
| <b>P: Endocrine &amp; Related Metabolic Agents</b>                          |   |   |
| Lipodystrophy Agent   | P1H   | EGRIFTA   |
| Thyroid and Parathyroid hormones  | P3A, <b>P3L</b> , P4M   | SYNTHROID, SENSIPAR, TAPAZOLE   |
| Oral Steroids   | P5A   | PREDNISOLONE  |
| <b>Q: Eye, ENT, Skin &amp; Related Mucosal Preparations</b>                 |   |   |
| Topical analgesics and local anesthetics                                    | Q5E, Q5H  | LIDOCAINE, VOLTAREN   |
| Anti-inflammation & anti-infection skin preparations                        | Q5F, Q5P, Q5R, Q5W  | BACTROBAN, Eucrisa, Elocon, LOPROX  |
| Topical antimicrobials & antivirals   | <b>Q5S, Q5V</b>   | SILVADENE, DENAVIR CREAM  |
| Glaucoma, anti-inflammation & anti-infection eye preparations               | Q6G, Q6P, <b>Q6R, Q6S, Q6U</b> , Q6W  | LUMIGAN, PRED FORTE, VIGAMOX  |
| Nasal sprays (Corticosteroid)   | <b>Q7E, Q7O</b> , Q7P   | FLONASE, NASACORT   |
| <b>Q: Eye, ENT, Skin &amp; Related Mucosal Preparations, cont'd</b>         |   |   |

Therapeutic Groups and Classes of Drugs added to the MADAP Formulary  
Updated as of 02-21-2019

| Therapeutic Group Description                | Therapeutic Class Codes | Sample of Corresponding Drugs    |
|--|-------------------------|----------------------------------|
| Ear Preparations                             | <b>Q8F</b>              | NEOMYCIN OTIC SUSP               |
| Benign prostatic hypertrophy (Urinary tract) | Q9B (J7B)               | FLOMAX                           |
| <b>R: Renal and Urinary Tract Agents</b>     |                         |                                  |
