1997 Maryland BRFS Questionnaire Administration

The 1997 BRFS Questionnaire has been programmed differently this year. All respondents will be asked the standard CDC core questionnaire (i.e., up to Question # 77). Five Maryland state-added modules are included in the survey this year: Sexual Behaviors, Fruits and Vegetables, Social Context, Pill Supplements, and Oral Health. These state-added modules will not be asked to everyone surveyed. The software has been programmed to administer the Sexual Behavior, Fruits and Vegetables, and Social Context (Program A) approximately 50% of the time and administer the Pill Supplement and Oral Health (Program B) modules the other half of the time. The core survey will include the HIV/AIDS questions and be asked at the end of the core to everyone under the age of 65 years. When Program A is in effect, both the HIV/AIDS and Sexual Behavior questions should appear at the end of the survey and be asked of the population over 50 years off age.
