“I am happy to take part in this survey. All women need access to excellent prenatal care and need to be educated on how to take care of themselves and their babies.”

INTRODUCTION

This report highlights data from births occurring to Maryland residents in 2004-2008 collected through the Pregnancy Risk Assessment Monitoring System (PRAMS). PRAMS is a surveillance system established by the Centers for Disease Control and Prevention (CDC) in 1987 to obtain information about maternal behaviors and experiences that may be associated with adverse pregnancy outcomes. Data are collected by surveying women who have recently delivered live born infants.

PRAMS projects are conducted through cooperative agreements between the CDC and state health departments. PRAMS projects are currently underway in 37 states, New York City and South Dakota (Yankton Sioux Tribe). All surveys include a core set of standardized questions, which allows for multi-state analyses. In addition, each state can add questions tailored to meet its needs. The core section of the survey includes questions relating to prenatal care, obstetric history, smoking, alcohol use, physical abuse, contraception, economic status, maternal stress, and infant health. The Maryland-specific section of the survey includes questions on assisted reproduction, contraceptive use, depression, oral health, chronic disease, physical activity, and infections.

The PRAMS project in Maryland is a collaborative effort of the Center for Maternal and Child Health (CMCH), the Vital Statistics Administration (VSA) of the Maryland Department of Health and Mental Hygiene, and the CDC. Maryland began collecting PRAMS data from mothers who delivered in 2000.

METHODOLOGY

Sampling and Data Collection

Women eligible to participate in PRAMS are selected from Maryland’s live birth certificate files. Each month, a stratified, random sample of approximately 200 live births is selected. The sample is stratified by maternal age (<35 years, ≥35 years) and infant birth weight (<2500 grams, ≥2500 grams). This sampling frame over-samples mothers who have delivered a low birth weight infant (<2500 grams) as well as mothers who are 35 years of age or older.

PRAMS combines two modes of data collection, a survey conducted by mailed questionnaire with multiple follow-up attempts, and if mail is not successful, a survey conducted by telephone interview. Survey questionnaires and other materials are available in both English and Spanish.

The first mailing, which is done two to four months after delivery, is a letter that introduces PRAMS to the mother and informs her that a questionnaire will soon arrive. Within seven days of this letter, the questionnaire packet is mailed. This packet includes the 76-item survey, informed consent page, calendar, and resource brochure. The mothers also receive either a 30-minute pre-paid phone card or $5 Target gift card incentive in their Mail 1 packets. Starting in 2008, as an added attempt to increase response rates, entry into a random monthly drawing for
a $100 Target gift card reward is available to those mothers who complete the survey by mail. Seven to 10 days after the initial packet is mailed, a tickler that serves as a thank you and reminder note is sent. Mothers who do not respond to the tickler within seven to 14 days are mailed a second questionnaire packet. A third questionnaire packet is mailed to all remaining nonrespondents seven to 14 days later. Telephone follow-up is initiated for all nonrespondents.

Data collected through PRAMS are linked to birth certificate data, which allows for the survey data to be weighted to reflect the total birth population. Sampling, nonresponse and noncoverage adjustment factors are applied to the data in order to make the results generalizable to the state’s population of women delivering live born infants during the study period. Further information on PRAMS methodology, including weighting procedures, may be found on the CDC website at http://www.cdc.gov/PRAMS/methodology.htm.

Survey Response and Data Analysis

CDC recommends that states obtain a response rate of at least 70% for analysis of PRAMS. The weighted response rate among women delivering in Maryland was between 70-73% for each birth year between 2004 and 2008. (Please note the 2005 birth year data only covers the period from 1/1-10/31 to achieve a 70% response rate for that year). During 2004-2008, 8,074 mothers completed the PRAMS questionnaire with a weighted response reflecting 329,701 mothers. Survey findings in this report are shown by race/Hispanic origin (White Non-Hispanic, Black Non-Hispanic, Asian and Hispanic), maternal age and maternal years of education.

ACKNOWLEDGMENTS

The Maryland PRAMS Project would like to acknowledge the CDC PRAMS Team for their technical assistance and support, especially Denise D’Angelo, MPH, our project manager who has expertly guided and assisted our program. Additionally, our thanks go to the Maryland PRAMS Steering Committee for their invaluable input to many aspects of our project.

Most importantly, we very much appreciate all the 8,074 mothers who took the time to complete the questionnaires that are represented in this report. Their answers will contribute greatly towards our continuing efforts to improve the health of Maryland mothers and babies.

Maryland PRAMS Highlights—2004-2008

Preconception factors

- Forty-one percent of all pregnancies were unintended.

- Thirteen percent of mothers reported a pregnancy loss in the twelve months preceding the current pregnancy.

- Sixty-seven percent of women reported having health insurance just before pregnancy, and 7% reported they were covered by Medicaid or Health Choice.

- Thirty-one percent of women reported taking a multivitamin daily in the month before conception.

- Eleven percent of mothers who were attempting to become pregnant used fertility treatments; 42% reported using fertility drugs, 17% used artificial insemination, and 24% used assisted reproductive technology.

Prenatal factors

- Seventy-seven percent of mothers began prenatal care during the first trimester of pregnancy, and 1% received no care.

- Sixty-six percent of women reported that health insurance or an HMO paid for their prenatal care; 28% reported that Medicaid or Health Choice paid for their care.

- Thirty-nine percent of women participated in the WIC program during pregnancy.

- Sixty-three percent of mothers reported one or more medical complications during pregnancy; severe nausea, preterm labor, and kidney or bladder infections were the most common complications.

- Eighty-one percent of mothers reported that HIV testing was discussed during prenatal care visits; 72% reported getting an HIV test.

- Ten percent of women smoked during the last three months of pregnancy. Eight percent of women reported using alcohol and <1% of women reported a binge-drinking episode during the last three months of pregnancy.

- Three percent of mothers reported being physically abused by an ex-husband or ex-partner during pregnancy, and 3% reported being abused by a husband or partner.

- Forty-two percent of mothers had a dental visit during pregnancy, and 25% needed to be seen for a dental problem.

Infant health and related factors

- Thirteen percent of newborns were admitted to a neonatal intensive care unit.

- Fifty-four percent of newborns were discharged from the hospital within two days of delivery, and 7% remained in the hospital for 6 or more days.

- Seventy-nine percent of infants were breastfed after delivery, and 68% were breastfed four weeks or longer.

- In terms of sleeping position, 68% of infants were usually placed on their backs to sleep, and 13% on their stomachs.

- Ninety-nine percent of infants had a well-baby checkup.

Maternal postpartum factors

- Seventeen percent of mothers reported they were not using postpartum contraception.

- Fourteen percent of mothers smoked postpartum.

- Thirty-six percent of mothers reported that they had not discussed postpartum depression with their health care providers during prenatal or postpartum visits.

Preconception Factors
"My husband and I worked hard to get this pregnancy. The 'before' was much harder than the pregnancy, delivery, or post-partum. I believe that the fatigue associated with depression from infertility is much more pronounced than any fatigue from pregnancy or new baby issues (lack of sleep, etc)."

PRAMS mother
INTENDEDNESS OF PREGNANCY

Question 13: Thinking back to just before you got pregnant with your new baby, how did you feel about becoming pregnant?

Distribution of Mothers by Intendedness of Pregnancy

Unintended pregnancies 41.4%

- Didn't want to be pregnant then or later 9.7%
- Wanted to be pregnant sooner 17.3%
- Wanted to be pregnant later 31.7%
- Wanted to be pregnant then 41.3%

Intended pregnancies 58.6%

Percentage of Mothers With Unintended Pregnancies

Race and ethnicity | Age | Years of education*
---|---|---
White Non Hispanic | 32.1 | 74.3 | 47.5
Black Non Hispanic | 60.5 | 59.6 | 51.4
Asian Hispanic | 40.7 | 40.3 | 30.6

*Includes only mothers ages 20 and above.
PHYSICAL ACTIVITY BEFORE PREGNANCY

Question 67: During the 3 months before you got pregnant with your new baby, how often did you participate in any physical activities or exercise for 30 minutes or more?

Distribution of Mothers by Physical Activity During the Three Month Period Before Pregnancy Began

Percentage of Mothers Who Reported They Participated in Physical Activity Less Than Five Times Per Week

*Includes only mothers ages 20 and above.
**PRECONCEPTION HEALTH PROBLEMS**

Question 7: During the 3 months before you got pregnant with your new baby, did you have any of the following health problems?

### Mothers Reporting Health Problems During the Three Months Prior to Conception

  - 25-29: 23.0%
  - 30-34: 14.0%
  - 35-39: 14.7%
  - 40+: 17.0%

- **Asian:**
  - <20: 31.1%

- **Hispanic:**
  - <20: 12.8%

*Includes only mothers ages 20 and above.
Prenatal Care as Early as Desired

Question 21: Did you get prenatal care as early in your pregnancy as you wanted?

Distribution of Mothers Who Did Not Begin Prenatal Care in the First Trimester by Satisfaction With Time During Pregnancy When Prenatal Care Began

- Began early enough: 46.1%
- Did not begin early enough: 51.6%
- Did not want care: 2.3%

Percentage of Mothers Who Did Not Begin Prenatal Care in the First Trimester and Reported that Prenatal Care Did Not Begin Early Enough in Pregnancy

*Includes only mothers ages 20 and above.
REASONS FOR LATE PRENATAL CARE

Question 22: Here is a list of problems some women can have getting prenatal care. For each item circle YES if it was a problem for you during your most recent pregnancy or circle NO if it was not a problem or did not apply to you.

Reasons Given for Not Beginning Prenatal Care As Early in Pregnancy As Desired Among Women Who Did Not Receive Prenatal Care as Early as Wanted

- Didn't have insurance or enough money: 35.7%
- Couldn't get appointment: 34.9%
- Didn't have Medicaid card: 26.8%
- Doctor/health plan would not start care earlier: 23.8%
- Keeping pregnancy secret: 14.8%
- No transportation: 12.4%
- Too busy: 9.6%
- No Leave: 8.1%
- No childcare: 7.8%
TOPICS DISCUSSED DURING PRENATAL CARE VISITS

Question 24: During any of your prenatal care visits, did a doctor, nurse, or other health care worker talk with you about any of the things listed below? Please count only discussions, not reading materials or videos.

Mothers Reporting That Selected Topics Were Discussed During Prenatal Care Visits

- Medicines that are safe during pregnancy: 88.8%
- Screening for birth defects or diseases: 88.3%
- Early labor: 84.7%
- HIV testing: 80.7%
- Breastfeeding: 79.4%
- Postpartum birth control: 77.8%
- Effects of drinking during pregnancy: 70.4%
- Effects of smoking during pregnancy: 68.2%
- Effects of illegal drugs during pregnancy: 62.1%
- Physical abuse: 50.2%
- Seat belt use: 47.9%
**Question 37:** This question is about things that may have happened during the *12 months before* your new baby was born. For each item, circle YES if it happened to you or NO if it did not.

### Mothers Reporting Stress by Type of Event

Maryland PRAMS
Phase 5 Questionnaire
“We should have surveys like this all the time so you know just how people feel and are doing before and after having a new baby or a loss of one.”

PRAMS mother
First, we would like to ask a few questions about you and the time before you got pregnant with your new baby. Please check the box next to your answer.

1. **Just before you got pregnant, did you have health insurance?** Do not count Medicaid.
   - [ ] No
   - [ ] Yes

2. **Just before you got pregnant, were you on Medicaid?**
   - [ ] No
   - [ ] Yes

3. **During the month before you got pregnant with your new baby, how many times a week did you take a multivitamin or a prenatal vitamin?** These are pills that contain many different vitamins and minerals.
   - [ ] I didn’t take a multivitamin or a prenatal vitamin at all
   - [ ] 1 to 3 times a week
   - [ ] 4 to 6 times a week
   - [ ] Every day of the week

4. **What is your date of birth?**
   - [ ] Month: 19
   - [ ] Day: 
   - [ ] Year

5. **Just before you got pregnant with your new baby, how much did you weigh?**
   - [ ] Pounds
   - [ ] Kilos
   - OR
   - [ ] Centimeters

6. **How tall are you without shoes?**
   - [ ] Feet
   - [ ] Inches
   - OR
   - [ ] Centimeters

7. **During the 3 months before you got pregnant with your new baby, did you have any of the following health problems?** For each one, circle Y (Yes) if you had the problem or circle N (No) if you did not.
   - [a] Asthma
   - [b] High blood pressure (hypertension)
   - [c] High blood sugar (diabetes)
   - [d] Anemia (poor blood, low iron)
   - [e] Heart problems

8. **Before you got pregnant with your new baby, did you ever have any other babies who were born alive?**
   - [ ] No
   - [ ] Yes
   - [ ] Go to Page 2, Question 11

9. **Did the baby born just before your new one weigh 5 pounds, 8 ounces (2.5 kilos) or less at birth?**
   - [ ] No
   - [ ] Yes

10. **Was the baby just before your new one born more than 3 weeks before its due date?**
    - [ ] No
    - [ ] Yes
11. How old were you when you had your first menstrual period?
   Years old

12. How old were you when you got pregnant with your first baby?
   Years old

The next questions are about the time when you got pregnant with your new baby.

13. Thinking back to just before you got pregnant with your new baby, how did you feel about becoming pregnant?
   [Check one answer]
   - I wanted to be pregnant sooner
   - I wanted to be pregnant later
   - I wanted to be pregnant then
   - I didn’t want to be pregnant then or at any time in the future

14. When you got pregnant with your new baby, were you trying to get pregnant?
   [Go to Question 17]
   - No
   - Yes

15. When you got pregnant with your new baby, were you or your husband or partner doing anything to keep from getting pregnant? (Some things people do to keep from getting pregnant include not having sex at certain times [rhythm] or withdrawal, and using birth control methods such as the pill, condoms, cervical ring, IUD, having their tubes tied, or their partner having a vasectomy.)
   [Go to Question 19]
   - No
   - Yes

16. What were your or your husband’s or partner’s reasons for not doing anything to keep from getting pregnant?
   [Check all that apply]
   - I didn’t mind if I got pregnant
   - I thought I could not get pregnant at that time
   - I had side effects from the birth control method I was using
   - I had problems getting birth control when I needed it
   - I thought my husband or partner or I was sterile (could not get pregnant at all)
   - My husband or partner didn’t want to use anything
   - Other — Please tell us: ____________________________
17. Did you receive treatment from a doctor, nurse, or other health care worker to help you get pregnant with your new baby? (This may include infertility treatments such as fertility-enhancing drugs or assisted reproductive technology.)

- No → Go to Question 19
- Yes

18. Did you use any of the following treatments during the month you got pregnant with your new baby?

- Fertility-enhancing drugs prescribed by a doctor (fertility drugs include Clomid®, Serophene®, Pergonal®, or other drugs that stimulate ovulation)
- Artificial insemination or intrauterine insemination (treatments in which sperm, but NOT eggs, were collected and medically placed into a woman’s body)
- Assisted reproductive technology (treatments in which BOTH a woman’s eggs and a man’s sperm were handled in the laboratory, such as in vitro fertilization [IVF], gamete intralophallopian transfer [GIFT], zygote intrafallopian transfer [ZIFT], intracytoplasmic sperm injection [ICSI], frozen embryo transfer, or donor embryo transfer)
- Other medical treatment → Please tell us:

The next questions are about the prenatal care you received during your most recent pregnancy. Prenatal care includes visits to a doctor, nurse, or other health care worker before your baby was born to get checkups and advice about pregnancy. (It may help to look at the calendar when you answer these questions.)

19. How many weeks or months pregnant were you when you were sure you were pregnant? (For example, you had a pregnancy test or a doctor or nurse said you were pregnant.)

- Weeks OR Months
- I don’t remember

20. How many weeks or months pregnant were you when you had your first visit for prenatal care? Do not count a visit that was only for a pregnancy test or only for WIC (the Special Supplemental Nutrition Program for Women, Infants, and Children).

- Weeks OR Months
- I didn’t go for prenatal care

21. Did you get prenatal care as early in your pregnancy as you wanted?

- No
- Yes
- I didn’t want prenatal care → Go to Page 4, Question 23
22. Here is a list of problems some women can have getting prenatal care. For each item, circle Y (Yes) if it was a problem for you during your most recent pregnancy or circle N (No) if it was not a problem or did not apply to you.

Pregnancy can be a difficult time for some women. These next questions are about things that may have happened before and during your most recent pregnancy.

37. This question is about things that may have happened during the 12 months before your new baby was born. For each item, circle Y (Yes) if it happened to you or circle N (No) if it did not. (It may help to use the calendar.)

   No  Yes
   a. A close family member was very sick and had to go into the hospital ................. N  Y
   b. I got separated or divorced from my husband or partner ....... N  Y
   c. I moved to a new address .......... N  Y
   d. I was homeless ................. N  Y
   e. My husband or partner lost his job........................ N  Y
   f. I lost my job even though I wanted to go on working ....... N  Y
   g. I argued with my husband or partner more than usual ....... N  Y
   h. My husband or partner said he didn't want me to be pregnant ....................... N  Y
   i. I had a lot of bills I couldn't pay .................................. N  Y
   j. I was in a physical fight .......... N  Y
   k. My husband or partner or I went to jail ..................... N  Y
   l. Someone very close to me had a bad problem with drinking or drugs ................. N  Y
   m. Someone very close to me died .................................. N  Y

   Go to Question 40a

38. During the 12 months before your new baby was born, how often did you feel unsafe in the neighborhood where you lived?

   - Always
   - Often
   - Sometimes
   - Rarely
   - Never

39. During the 12 months before your new baby was born, did you do any of the following things because you felt it was unsafe to leave or return to the neighborhood where you lived? For each item, circle Y (Yes) if you did it or circle N (No) if you did not.

   No  Yes
   a. I missed doctor or other appointments ....................... N  Y
   b. I limited grocery or other shopping ......................... N  Y
   c. I stayed with other family members or friends ......... N  Y

The next questions are about the time during the 12 months before you got pregnant with your new baby.

40a. During the 12 months before you got pregnant, did an ex-husband or ex-partner push, hit, slap, kick, choke, or physically hurt you in any other way?

   - No
   - Yes
40b. During the 12 months before you got pregnant, were you physically hurt in any way by your husband or partner?

- No
- Yes

The next questions are about the time during your most recent pregnancy.

41a. During your most recent pregnancy, did an ex-husband or ex-partner push, hit, slap, kick, choke, or physically hurt you in any other way?

- No
- Yes

41b. During your most recent pregnancy, were you physically hurt in any way by your husband or partner?

- No
- Yes

The next questions are about your labor and delivery. (It may help to look at the calendar when you answer these questions.)

42. When was your baby due?

Month  Day  Year

43. When did you go into the hospital to have your baby?

Month  Day  Year

- I didn’t have my baby in a hospital

44. After you were admitted to the hospital to deliver your new baby, were you transferred to another hospital before your baby was born?

- No
- Yes

45. When was your baby born?

Month  Day  Year

46. When were you discharged from the hospital after your baby was born?

- I didn’t have my baby in a hospital

(It may help to use the calendar.)
47. **How was your delivery paid for?**

Check all that apply

- Medicaid
- Personal income (cash, check, or credit card)
- Health insurance or HMO (including insurance from your work or your husband’s work)
- Other Please tell us:

The next questions are about the time since your new baby was born.

48. **After your baby was born, was he or she put in an intensive care unit?**

- No
- Yes
- I don’t know

49. **After your baby was born, how long did he or she stay in the hospital?**

- Less than 24 hours (less than 1 day)
- 24 to 48 hours (1 to 2 days)
- 3 days
- 4 days
- 5 days
- 6 days or more
- My baby was not born in a hospital
- My baby is still in the hospital

Go to Question 52

50. **Is your baby alive now?**

- No
- Yes

Go to Question 60

51. **Is your baby living with you now?**

- No
- Yes

52. **Did you ever breastfeed or pump breast milk to feed your new baby after delivery?**

- No
- Yes

Go to Question 56

53. **Are you still breastfeeding or feeding pumped milk to your new baby?**

- No
- Yes

Go to Question 55

54. **How many weeks or months did you breastfeed or pump milk to feed your baby?**

___ Weeks OR ___ Months

- Less than 1 week

55. **How old was your baby the first time you fed him or her anything besides breast milk?** Include formula, baby food, juice, cow’s milk, water, sugar water, or anything else you fed your baby.

___ Weeks OR ___ Months

- My baby was less than 1 week old
- I have not fed my baby anything besides breast milk

If your baby is still in the hospital, go to Question 60.
56. About how many hours a day, on average, is your new baby in the same room with someone who is smoking?

- [ ] Hours
- [ ] Less than 1 hour a day
- [ ] My baby is never in the same room with someone who is smoking

57. How do you most often lay your baby down to sleep now?

- [ ] On his or her side
- [ ] On his or her back
- [ ] On his or her stomach

58. Was your new baby seen by a doctor, nurse, or other health care worker during the first week after he or she left the hospital?

- [ ] No
- [ ] Yes

59. Has your new baby had a well-baby checkup? (A well-baby checkup is a regular health visit for your baby usually at 2, 4, or 6 months of age.)

- [ ] No
- [ ] Yes

60. Are you or your husband or partner doing anything now to keep from getting pregnant? (Some things people do to keep from getting pregnant include not having sex at certain times [rhythm] or withdrawal, and using birth control methods such as the pill, condoms, cervical ring, IUD, having their tubes tied, or their partner having a vasectomy.)

- [ ] No
- [ ] Yes → Go to Page 12, Question 62

61. What are your or your husband’s or partner’s reasons for not doing anything to keep from getting pregnant now?

- [ ] I am not having sex
- [ ] I want to get pregnant
- [ ] I don’t want to use birth control
- [ ] My husband or partner doesn’t want to use anything
- [ ] I don’t think I can get pregnant (sterile)
- [ ] I can’t pay for birth control
- [ ] I am pregnant now
- [ ] Other → Please tell us:

__________________________
The next few questions are about the time during the 12 months before your new baby was born.

62. **During the 12 months before your new baby was born, what were the sources of your household’s income?**

   - [ ] Paycheck or money from a job
   - [ ] Money from family or friends
   - [ ] Money from a business, fees, dividends, or rental income
   - [ ] Aid such as Temporary Assistance for Needy Families (TANF), welfare, WIC, public assistance, general assistance, food stamps, or Supplemental Security Income
   - [ ] Unemployment benefits
   - [ ] Child support or alimony
   - [ ] Social security, workers’ compensation, disability, veteran benefits, or pensions
   - [ ] Other —— Please tell us:

64. **During the 12 months before your new baby was born, how many people, including yourself, depended on this income?**

   —— People

65. **During the 12 months before you got pregnant with your new baby, did you have a miscarriage, fetal death (baby died before being born), or stillbirth?**

   - [ ] No
   - [ ] Yes

   **Go to Question 67**
If you had more than one miscarriage, fetal death, or stillbirth during the 12 months before you got pregnant with your new baby, please answer the next question for the most recent one.

66. How long did that pregnancy last?

- Less than 20 weeks (less than 4 months)
- 20 to 28 weeks (4 to 6 months)
- More than 28 weeks (more than 6 months)

On the last few pages, there are questions on a variety of topics. Your answers should be for your most recent birth and the pregnancy leading up to that birth.

67. During the 3 months before you got pregnant with your new baby, how often did you participate in any physical activities or exercise for 30 minutes or more? (For example, walking for exercise, swimming, cycling, dancing, or gardening.) Do not count exercise you may have done as part of your regular job.

- Less than 1 day per week
- 1 to 4 days per week
- 5 or more days per week

68. During your most recent pregnancy, did a doctor, nurse, or other health care worker tell you that you had a urinary tract infection (UTI), a sexually transmitted disease (STD), or any vaginal infection, including bacterial vaginosis or Group B Strep (Beta Strep)?

- No
- Yes

69. At any time during your most recent pregnancy, did you seek help for depression from a doctor, nurse, or other health care worker?

- No
- Yes

70. At any time during your most recent pregnancy or after delivery, did a doctor, nurse, or other health care worker talk with you about “baby blues” or postpartum depression?

- No
- Yes

71a. Since your new baby was born, how often have you felt down, depressed, or hopeless?

- Always
- Often
- Sometimes
- Rarely
- Never

71b. Since your new baby was born, how often have you had little interest or little pleasure in doing things?

- Always
- Often
- Sometimes
- Rarely
- Never

72. Since your new baby was born, did you seek help for depression from a doctor, nurse, or other health care worker?

- No
- Yes
73. This question is about things that may have happened during your most recent pregnancy. For each thing, circle Y (Yes) if it happened to you or circle N (No) if it did not.

During your most recent pregnancy—

<table>
