## Lower Anchors and Tethers for Child Restraints • 2005

*LATCH Lower Anchors and Tethers for Children* focuses on understanding the new method of anchoring child restraints in vehicles (LATCH). The manual continues to cover retrofitting of tether anchors in older vehicles, including instructions and part numbers.

LATCH is three manuals in one: installation guide, text-book, and product reference list.

**The LATCH manual is a tool for:**

- Child Passenger Safety Technicians/Instructors and safety advocates
- Vehicle dealerships and repair shops
- Manufacturers' customer service personnel

### **Edition Highlights:**

- ❖ Over 200 pages, illustrated.
- ❖ Correct use of universal child restraint anchorage systems (LATCH / ISOFIX / LUAS),
- ❖ Common LATCH usage problems.
- ❖ Clarification of LATCH usage issues that have arisen in the past two years
- ❖ Discussion of tether usage for child restraints with harnesses for children weighing over 40 pounds.
- ❖ How to tether forward-facing and rear-facing child seats.
- ❖ How to install a tether anchor in various types of vehicles.
- ❖ **EXPANDED:** Vehicle listings of seating positions with LATCH, through 2006.
- ❖ Part numbers of vehicle tether anchor kits for 30 vehicle manufacturers, from 1985 to 2000.
- ❖ **UPDATED:** Child Restraint listings
